SmartWare is looking for a talented UI Designer to create amazing user experiences

The ideal candidate should have an eye for clean and artful design, possess superior UI skills and be able to translate high-level requirements into interaction flows and artifacts, and transform them into beautiful, intuitive, and functional user interfaces.

Responsibilities

- Collaborate with product management and engineering to define and implement innovative solutions for the product direction, visuals and experience.
- Execute all visual design stages from concept to final hand- off to engineering.
- Conceptualize original ideas that bring simplicity and user friendliness to complex design roadblocks.
- Create wireframes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas.
- Present and defend designs and key milestone deliverables to peers and executive level stakeholders.
- Conduct user research and evaluate user feedback.
- Establish and promote design guidelines, best practices and standards requirements.
- Proven UI experience.
- Demonstrable UI design skills with a strong portfolio.
- Solid experience in creating wireframes, storyboards, user flows, process flows and site maps.
- Excellent knowledge in Photoshop, Illustrator, OmniGraffle, or other visual design and wire-framing tools.
- Sufficient knowledge in HTML, CSS, and JavaScript for rapid prototyping.
- Excellent visual design skills with sensitivity to user- system interaction
- Ability to present your designs and sell your solutions to various stakeholders.
- Ability to solve problems creatively and effectively.
- Up- to-date with the latest UI trends, techniques, and technologies Optional Requirements.
- BS/MS in Human- Computer Interaction, Interaction Design, or related.

If you meet the requirements, please send your cv to cv@smartware.gr
